About NYSASDRI School of Journalism & Social Work

Keeping in view of the requirements of social workers and journalists in Government and Private sectors, NYSASDRI has opened "NYSASDRI SCHOOL OF JOURNALISM AND SOCIAL WORK" (NSJS) at Govindpur, Dhenkanal. This school has got recognition from Government of Odisha Tourism and Culture and affiliation from the Utkal University of Culture. This school offers opportunity to our students from Masters Degree in professional social works. It offers core courses pertaining to social work curriculum across the globe and India. The course includes themes

in some of the emerging areas of social work. Theory, internal assessment, practical, field work and dissertation writes are the basis of the course. Similarly master degree in Journalism and Mass communication has been designed to meet the ever increasing demand for trained manpower in different media organisation. The course has been planned to develop the skill and competencies of those who are working in media organisation. By this we hope to provide world class education at a low cost and make our students to cope up with the changing society. Needless to say that we have with us well qualified

and dynamic teachers who would not only teach but develop the skills and knowledge of our students to the best of their satisfaction.

From the Director, Dr Sarangadhar Samal

It was a long pending expectation to offer world class education at local cost. Our people are more intelligent and talented than anybody else. Society requires a lot of social workers and journalists. However we neither have enough number of

social workers to render tireless service to our community nor enough professional journalists to offer news about the great socio-economic changes taking place in our country. Therefore at NSJS we have created an opportunity for our talented youths to upgrade their knowledge and skill for the social worker or of a professional journalist. This center is connected with rest of the world on social work & professional journalism. Many professors

& visiting faculties from U.S.A and Europe would come and participate in seminars and workshops at different times of the year. I believe that NSJS two years Master Degree on Social Work & Journalism will be immensely beneficial to the students and the society as well.
