There is the library which would meet the academic needs of the students.
- NSJS will arrange study tour to various famous national and international organizations for exchange of culture, knowledge, ideas etc. NSJS will also provide the same facility to the student’s studying inside India and abroad.

## Chairman's Desk

It was a long pending expectation to offer world class education at local cost. Our people are more intelligent and talented than anybody else. Society requires a lot of social workers and journalists. However we neither have enough number of social workers to render tireless service to our community nor enough professional journalists to offer news about the great socio-economic changes taking place in our country.

Therefore at NSJS we have created an opportunity for our talented youths to upgrade their knowledge and skill for the social worker or of a professional journalist. This center is connected with rest of the world on social work & professional journalism. Many professors & visiting faculties from U.S.A and Europe would come and participate in seminars and workshops at different times of the year. I believe that NSJS two years Master Degree on Social Work & Journalism will be immensely beneficial to the students and the society as well.

## Department of Journalism

Journalism is one of the fastest emerging career fields among the today's young generation. "The pen is all time powerful than the sword". This is one of the basics of journalism. In today's world, people want to be aware all about the activities in the country, if it is about politics, celebrities, science and culture of India or from international affairs.

Journalism is spreading the information and communicating through the emerging technology and the journalist is playing the vital role in this practice. A journalist covers the information about the business, culture, politics, arts, economics, history, entertainment and sports.

Several Indian universities and college offers the graduate degree courses in Master in journalism and mass media. Some private institution also offers the courses in journalism. This is a professional course and can be pursued after the completion of graduation. Here the NSJS is framing this type of atmosphere for the journalism students.

## Department of Social Work

Through readings, speakers and group work, students consider their capacities for a social work career. This course examines the development of the field, including the knowledge and value bases of the social welfare system. Students become familiar with levels of practice, from individual to organizational, the generalist practice, problem solving and social empowerment. Students generally must take this course before being admitted into a social work program.

In this course, students apply knowledge gained in the classroom to practical situations that model real-world problems. Students develop skills in oral and written communication, effective supervision and critical assessment. This course may include placement with a social work agency and an additional seminar. It is generally taken towards the end of a social work program. Here the NSJS is framing this type of atmosphere for the social work students.
